

STATEMENT OF PURPOSE

RS20661C1

This legislation ends the state's involvement in public school driver training program reimbursements. Currently the state reimburses local school districts \$125 per student who enrolls in a public driver training program. This bill eliminates the state per-pupil reimbursement and returns that money to the public school income fund and the state highway account. The bill also provides for the remittance of the fund balance in the Driver's Training Fund to the general fund.

FISCAL NOTE

The legislation results in an annual average increase of \$2.2 million to the public school income fund and an annual average increase of \$100,000 to the state highway account. In addition, the fund balance in the Driver's Training Fund is estimated to be \$1 million, which would go to the general fund.
